

IBRAHIM POPATIYA

AI & SOFTWARE ENGINEERINGENTHUSIAST|COMPUTER ENGINEERING GRADUATE(2026)

PROFILE

Motivated Computer Engineering student with hands-on experience in building AI-powered applications and automation tools. Skilled in Python, FastAPI, and PyQt5 with projects ranging from intelligent resume screening and deep web search to custom screenshot utilities. Strong problem-solving ability with a passion for creating real-world solutions that integrate AI, automation, and user- focused design.

PROJECT

AI Resume Screening & Feedback Agent

Personal Project

- **WHAT DOES:** Acts as an AI assistant for recruiters to evaluate resumes, provide feedback, and reduce screening time. **BUILT WITH:** Python, OpenAI, Custom Agents,
- **SendGrid, Gradio KEY FEATURES:** Resume parsing (PDF/DOCX), natural language
- Q&A, automated fitment analysis, personalized feedback, email workflows, and recruiter dashboard.

Deep Search & Automated Client Outreach

Personal Project

- **WHAT DOES:** Automates client research and personalized outreach via web data extraction.
- **BUILT WITH:** Python, Web Scraping, Automation, SendGrid
- **KEY FEATURES:** Deep web search, intelligent data filtering, personalized email generation and smooth end-to-end outreach automation.

StreamWorks: AI-Powered Multimedia Processing Platform

Personal Project

- **WHAT DOES:** Provides end-to-end video, audio, and image processing workflows with automation. **BUILT WITH:** Python, FastAPI, SQLAlchemy, Pytesseract, Pillow,
- **PyDub, MoviePy, FFMPEG, SpeechRecognition, Google API KEY FEATURES:** Download YouTube videos/playlists, extract + transcribe audio, OCR for text extraction
- **KEY FEATURES:** from images, REST APIs for file management, error handling + validation, and multimedia file processing.

IntelliDocs: AI-Powered Knowledge System

- **WHATDOES:** Acts as an AI-powered document management and chatbot platform for users to upload, search, and interact with documents using natural language queries.
- **BUILT WITH:** Python, FastAPI, PostgreSQL, Qdrant (Vector DB), PyPDF2, python-docx, Pandas, OpenAI (LLMs + Embeddings), BM25 (rank_bm25)
- **KEY FEATURES:** Multi-format document upload (PDF, DOCX, TXT, CSV, JSON) Automatic text extraction and chunking, Semantic search using OpenAI, embeddings and Qdrant, Keyword search with BM25, AI-powered question answering from document content, Conversation history tracking, Scalable backend for enterprise and personal use, Natural language querying and chatbot interface

SKILL

Programming Scripts:

Python
FastAPI
SQL

AI & Data:

Agentic AI workflows
Prompt engineering & LLM integration

Other Skills:

Problem Solving
Debugging
Building Scalable Projects
Research & Documentation

EDUCATION

Dr. Babasaheb Ambedkar
Technological University
Nanded.

BTech Computer Science and Engineering
